

STUDENT STORY

Ruby Tighe

Qualification:

Bachelor of Education (K-6)

Why did you choose your degree and what do you enjoy the most about it?

I chose my degree as I have always been passionate about assisting children and students in their learning journeys. I love that the practical tip lectures help me achieve this goal.

What has been your learning journey to date?

My learning journey has been quite extensive. I have completed my Cert IV in Dance Teaching and Management when I was in Year 12 at the Glennie School. I also completed 4x Headstart courses in Year 11 and 12 and now I am studying at The University of New England.

How important is having the CUC in your local town to you and why?

Having CUC has been the best. I wouldn't of been able to complete my degree at the current capacity I am, without the Centre. CUC provides a place that offers assistance in all different areas and you can create friendships with people who are going through the same thing as you whether their online student or doing the same degree
